HITESH VAGHELA

OBJECTIVE

- To work with an organization where can learn new skills and increase my abilities for the organizational goals as well as myself.

EDUCATION

SSC (2015-2017)

❖ Passed out 10th From GSEB in 2017 with 90.33% mark.

HSC (2017-2019)

❖ Passed out 12th From GSEB in 2019 with 84% marks.

❖ ACPC Rank - 1475

B.Tech (2019-2023)

➢ Completed BE (Computer Engineering) from L. D. college of engineering, Ahmedabad.

➢ CPI :- 7.98

➢ CGPA :- 8.66

INTERNSHIP EXPERIENCE

DATA SCIENCE INTERN | MAXGEN TECHNOLOGIES (FEB '01 – MAY '01)

As a Data Science Intern at Maxgen Technologies, I engaged in a dynamic internship where I had the opportunity to contribute on Project Titled as "Plant Disease and Crop Recommendation".

Key Contributions:

- Data Exploration and Cleaning
- ML and DL Model Implementation
- Feature Engineering
- Deployment

WEB DEVELOPMENT INTERN | OASIS INFOBYTE (JUNE '22 – JULY '22)

Interned at Oasis Infobytes, Gained proficiency in HTML, CSS and JavaScript. Applied problem-solving and coding Skills for delivering valuable contributions. Built The to-do WebApp, calculator and Tribute page.

JOB EXPERIENCE

➢ **ETHOS-HR(BISAG-N) (2024-2025)**

- Software Developer
- Working as a FullStack Developer with Specialization in Python Django Framework
- Technologies – Python, Django, PostgreSQL, Cesium, Flask, Java and JavaScript
- Experience – 12 Months (1 Year)

SKILLS

- Python
- Machine Learning
- Deep Learning
- Data Analysis
- HTML and CSS, JavaScript
- Web Development
- SQL

STRENGHT AND HOBBIES

- Smart Working
- Punctuality
- Good Communication
- Video Editing
- Cricket

PROJECTS

BIRDS SPECIES CLASSIFICATION

- 'BIRD SPECIES CLASSIFICATION' is A ML and DL based webapp which classifies the species of bird identifies the bird. it uses the PyTorch framework and the ResNet architecture of CNN model. It can recognize the species of birds in images based on their visual representation.
- **Technology Used –** PYTHON, ML, DL, HTML, CSS and JAVASCRIPT.
